

# TL;DR

---

House Manager is an app for iOS & iPadOS designed to be your home's command center, keeping every detail at your fingertips. Save time, prevent costly repairs, and protect your investment!

---

## What is House Manager?

---

House Manager is more than just an inventory app. House Manager keeps a full log of your maintenance history, warranties, and more. House Manager promises to help you keep your house in better shape than ever before!

### House Manager features include:

- Home Maintenance - track routine maintenance tasks with smart reminders.
  - Warranties - save warranty information and expiration details.
  - Projects - track and organize home improvement projects.
  - History - see when you last completed tasks & any related notes.
  - Attachments - keep files alongside items to easily find them when needed.
  - Locations - sort your inventory by room or other locations.
  - Home Sharing - share your home with a partner or roommate.
  - Beautiful Design - native & intuitive layout puts everything you need right at your fingertips.
  - Cross-device support - from iPhone to iPad and back again, seamless & secure syncing.
- 

## Who is House Manager for?

---

Anyone who owns a house or apartment can benefit from House Manager. Organization and recurring maintenance are a struggle for almost every homeowner!

---

## Pricing

---

House Manager is a free download with a 3 project & 5 inventory item limit. Users can unlock unlimited inventory, projects, and allow attachments with House Manager Premium - available as a monthly or annual subscription.
